Mexican Art Exhibit “Corazón de México”

Presented by: Centennial college of Applied Arts and Technology

Sent with the permission of Rosanna Cavallaro, AVP Marketing and Communications:

Centennial College is hosting a unique collection of Mexican folk art, entitled Corazon de México or “Heart of Mexico,” which has come to Canada for the first time. The exhibition had its official opening ceremony last night at our new Fireside Gallery on the first floor of the Library and Academic Facility, Progress Campus.

The exhibition consists of 61 pieces of art produced by the Asociación Metropolitana de Artistas Plásticos Visuales y Manuales and the Saturday workshops of the Universidad Tecnológica de Tulancingo involving students and women of Tulancingo, Hidalgo, who were keen to capture the sensitivity, creativity and spirit of Mexican society.

The official opening brought together some of the artists - who were flown in by the Mexican government - as well as representatives from the Consulate General of Mexico in Toronto.

The art pieces – which include media such as needle oil, paper mache and textile art – are also located on the second and third floors of the Library space. Visitors are encouraged to walk through the entire facility to view all the works.

The event is co-sponsored by the Universidad Tecnológica de Tulancingo, the DGA Secretaria de la Defensa, Consulate General of Mexico in Toronto and the Minister of Foreign Affairs of Mexico.

Centennial employees and students are cordially invited to visit the Library and Fireside
